

Letter of Recommendation for

Allan Mutrie

It is my pleasure to write this letter for Allan Mutrie. I have worked with Allan for the past seven years in an educational setting in the Webster Central School District. I believe that Allan has the ability and qualities to be an outstanding educator in your school district.

Allan is a person that helps people by doing the little things that most of us are unwilling to do or just do not see that it would make a difference. He makes everybody that comes in contact with him from student, peer, administrator, and community members better for the experience. He goes the extra mile to make those experiences positive for all. Allan is a very caring and sharing person. He does this by always looking at the positive in people and believing that everyone can succeed in life. Allan also rolls up his sleeves and helps by being proactive in making changes and trying to find ways to do things better. Allan also, a great amount of knowledge in many different areas that allows him to work with different populations.

Allan has ability to face any challenge head on and over come odds in order to have a positive effect on whatever is at hand. As you see, I believe very strongly in Allan Mutrie as a whole person. Allan is a great person and colleague and I am honored to write this letter on his behalf. If you require further information, please call me at 585-670-8029 or email david_evans@websterschools.org.

Sincerely,

David B. Evans
