To Whom this may concern:

I am writing a letter of recommendation for someone that I believe is truly an amazing human being. This person that I am talking about is Allan Mutrie. Allan is that kind of guy that would do anything for you, no questions asked.

Allan asked me to write this letter for him because I am the head Boys Volleyball Coach at Webster Thomas High School and Allan is my Modified coach. It is kind of a funny story about how and why Allan got hired as my modified coach. About 4 years ago the job opened up and my athletic Director told me that Allan Mutrie had applied for the position. You couldn't have picked a better person. The funny part about this was Allan's volleyball knowledge was limited. The volleyball part of the job really didn't matter because I knew that Allan would be perfect for the job because of all his qualities that he possesses as a person. He is patient, understanding, forgiving and probably has one of the purest hearts of any person that I know.

The bottom line is Allan is so good with kids. I have stopped in on many practices throughout the years and every time I walk into the practices the kids are listening, respectful and soaking up whatever Coach Mutrie has to say. This is a gift that Allan possesses when kids are around.

I would highly recommend Allan Mutrie into your Admissions.

Sincerely,
